SAFEGUARDING: KEEPING CHILDREN SAFE IN EDUCATION POLICY

Please be aware that this policy should be read in conjunction with Keeping Safe in Education 2021, and Sexual violence and sexual harassment between children in schools and colleges 2021.

1.0 Introduction

iMap School Barrowmore fully recognises its responsibilities for the safeguarding of children. We recognise that the day to day contact with children makes school staff well placed to observe the outward signs of abuse.

Our policy applies to all staff, governors and volunteers working in the school. There are five main elements to our policy.

- Ensuring we practice safe recruitment in checking the suitability of staff and volunteers to work with children.
- Ensuring that procedures set out by the Cheshire West and Chester Safeguarding Children's Partnership are followed by the designated teacher for child protection and where appropriate the designated governor for child protection. See CWAC Safeguarding Children's Partnership for details.
- Raising awareness of child protection issues and implementing procedures for identifying and reporting cases, or suspected cases, of abuse. This includes staff training so that all understand how to spot abuse and their responsibilities to report their concerns.
- Supporting students who have been abused, in accordance with their agreed child protection plan.
- Establishing a safe environment in which children can learn, develop and feel listened to.

Principles of Child Protection

- The protection and welfare of the child must be the paramount consideration in all action.
- All professionals in contact with children should be aware of the possibility of abuse and neglect and need to maintain vigilance at all times.
- The protection and welfare of the child must be the paramount consideration in all action.
- Procedures must be followed to ensure prompt and effective help for families.
- Children must be listened to, taken seriously and their comments fully evaluated.
- All those involved in child protection cases, including children, families and individuals alleged to have been responsible for harm, must be treated with sensitively and courtesy whilst going through any child protection process.
- Parents, carers and children must be kept fully informed and, where appropriate, involved in decision making.
- Child protection services should be available and accessible to all members of the community.
